# How to download Sketchbook?

We prefer that students use a desktop /laptop computers for this class instead of a tablet. Since some tablets lack screen sharing capabilities for virtual classroom, trouble shooting and helping students during the class becomes very difficult.

Sketchbook is a free software. After 7 days of trial, you will be prompted to register. Registration is still free.

## To Download for Windows

- Visit https://sketchbook.com/thankyou
- And click on the Mac or Win (64-Bit) depending on your operating system.

Please note that downloading Sketchbook from the Microsoft store directly, downloads tablet version which lacks some functionalities.

- Open App Store and Find "Autodesk Sketchbook"
- Click Install

- Once installed, use spotlight search or use Applications to find sketchbook and open Sketchbook.

OR

To download for Chromebook

Autodesk Sketchbook is available in Google play.

- Visit
  https://play.google.com/store/apps/details?id=com.adsk.sketchbook&hl=en_IN
- Click Install

Please note that chrome book version of sketchbook lacks some functionalities.
